#### The Nelson Case.

As was stated in the Gazette John Court to show that Nelson should be released, and the attorneys for the Comarson. Late yesterday afternoon the arand the prisoner was released. Five elections, charges have been filed against Nelson, one for each of the buildings destroyed in the Jackson City fire. The \$6,000 bail was apportioned among the various charges follows; Dwelling of Foster and coming towards this city, a Sanderson, \$3,000; George Myers' house \$1,000; Charles Smith's houseboat, \$500; Pennsylvania Railroad tower \$500; Foster's club house, \$1,000. Before Nelson was released, Judge Love announced that a special grand jury will be impanced Friday to consider the charges rescue, pretended he had caught the against Nelson and against John Tighe, the clubhouse employe, who also has been charged with having a hand in the de-struction of the buildings, Tighe was unsuccessful in securing bail and is in jail. In calling the special grand jury, Judge Love stated that he had been advised by the authorities in Richmond of the passage by the Virginia legislature of laws permitting the impaneling of juries. Now that the question of legality of juries in Virginia has been cleared, the court will proceed with the trial of James Geary, Attorney Simmons, and Elvin Marcey, the three men charged with assaulting soldiers in Rosslyn. The release of Nelson on bail is a decided victory for his attorneys. They claim it shows that the attorneys for the Commonwealth did not establish the fact that any destroyed buildings were dwellings in the sense of the word as used in the Virginia statutes, which make it a capital offense to burn a dwelling house at night. If it had been proven to the satisfaction of Judge Love that the Nelson club house was the regular lodging place of the men employed in the house, the release of Nelson could not have been effected, for his crime would have been shown to be one that is

#### punishable by death. To Be Tried at Last.

A dispatch from Warsaw today says "Judge R. P. Beale, indge of the County Court of Westmoreland county, decided this morning to go into the trial of John Lomax, colored, charged with assault upon Miss Sissie Costenbader about one month ago, near Potomac Mills, in that county. The prisoner is still in jail in Alexandria county, where he has been since the crime was committed, as lynch ing was feared. He will on Monday be taken to Montross by the Randall Line steamer. The Washington Guards, of Fredericksburg, will accompany protect the prisoner during the trial."
The prisoner is now confined in the city waiting orders from the sheriff of Westmoreland, who, it is thought, will come here next Monday. An unfortunate delay in this case took place Monday, and after the Fredericksburg soldiers reached here they were obliged to return without the prisoner. It is hoped that now nothing further will in-terrupt the trial of the negro, and the excitement that has been aroused throughout the Westmoreland section may quiet down.

### Man Whitecapped.

The normal quiet of the northwestern portion of this city was broken last night by cries emanating from that quarter akin to those occasionally heard in a country schoolhouse when the pedagogue is meting out condign punishment to a refactory truant. It is charged that a man with a small stock of the Engl sh language has been indulging in the modern pastime of wife-beating, and some of his fellow Teutons called on him during the wee sma' hours of last night. Having enticed him into the street he was seized and given a thrashing he will remember for many days. He was then released with the positive assurance that should he, in the future, be guilty of brutal conduct toward his better-half, another castigation will be his portion.

Not all of the registrars recently ap-

So much confusion has grisen as to the much confusion has arisen as to the eligibility of unregistered citizens serve on juries, that it is thought the registration should be held at the Nelson, who is charged with having registration should be held at the burned the gambling houses in Jackson earliest moment to set at rest this and City the night of July 14, was admitted other questions now in doubt. The law to bail yesterday by Judge J. M. Love in the County Court. For two days Nelson's attorneys presented evidence and arguments in the Alexandria County voters. POISONING THE SYSTEM.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dulness and melanchoid at first, then unsightly cruptions and finally serious illness unless a remedy is applied. These little pills do not act violently but by strengthening the bowels enables them to perform their own work. Never gripe or distress. For sale by E. S. Leadbeater & Sons.
